Courses

- Full Stack Web Developer

Bachelor of Computer Applications

Ranchi University Ranchi

04/2019 - 04/2022 Ranchi, India, 74.43/100

WORK EXPERIENCE

Intern at Web Designer,

Buck Softech Private Limited, Ranchi

03/2022 - 04/2022 Ranchi, India

During my internship at BSPL Ranchi, Jharkhand, I had the opportunity to learn and apply my skills in web design. Working under the guidance of experienced professionals, I gained valuable insights into the web design industry and honed my abilities in creating visually appealing and user-friendly websites

Intern at Dot Technology With SQL Server

Zivaan Marketplace(P) Ltd, Ranchi

04/2022 - 05/2022 Ranchi, India

During my internship, I got hands-on experience with .NET and SQL Server, developing a web application. I built robust functionalities, integrated databases, and implemented secure user authentication. It was an incredible learning opportunity that enhanced my skills in backend development.

Intern at Full Stack Web Developer

Bharat Intern

11/2023 - 12/2023 Vadodara, India

During my internship, I had the opportunity to learn and gain experience in various aspects of web development. I learned how to develop a registration form using HTML, CSS, Node.js, and MongoDB, and also gained knowledge in creating dynamic blog websites. These experiences have greatly enhanced my skills in full stack web development and database management.

PERSONAL PROJECTS

Personal portfolio websites

- My latest creation is a responsive portfolio website developed with HTML, CSS, and JavaScript. It showcases my skills and achievements in an aesthetically pleasing and user-friendly manner."

Blog Websites

- Developed a dynamic vlog website using HTML, CSS, Node.js, and MongoDB, showcasing proficiency in full stack web development and database management.

Eclone Flipkart Websites

- I have created the first page of a Flipkart clone website using HTML and CSS. The page showcases a visually appealing and user-friendly design, replicating the familiar Flipkart layout. It features a responsive design, ensuring compatibility across various devices
